

SHERATON®

A close-up photograph of a person's hands pouring red wine from a polished silver carafe into a white ceramic cup. The person is wearing a light blue shirt. The background is blurred, showing a dark countertop and some greenery. The text 'POUR SOME HEART INTO YOUR HOME' is overlaid in large, white, serif capital letters.

# POUR SOME HEART INTO YOUR HOME

**T**his guide to our collection of luxury kitchens will help you to dream, design and realise your perfect space. Where host and guest alike can indulge in the pleasure of good food, good wine, good company. If you're looking for opulence, for classic design built to last a lifetime, then you're in the right place.

# EVERY SHERATON KITCHEN COMES WITH SOMETHING WE'RE CONFIDENT YOU'LL NEVER USE.

Our kitchens are made for life. Not just that they last a lifetime, although our 20 year guarantee will assure you of that, but they're made to be lived in.

We guarantee that your kitchen cabinets will be free from defects in materials and workmanship, or else we'll repair or replace free of charge, for a full 20 years.

Plus we also cover your doors and selected accessories for 15 years, so you can enjoy your new kitchen knowing you're taken care of by our guarantee.

# INSPIRED BRITISH DESIGN

**B**ritish design is famous the world over. When you choose a Sheraton kitchen, you bring the best of British into your home. That's because our range of premium quality kitchens is built using the finest materials from around the world, manufactured right here at our purpose-built factory in the heart of Yorkshire.

# CRAFTED FOR YOU

**W**e craft each and every kitchen with love, skill and attention. Our rigid cabinets are made to order, using traditional glue and dowel construction and pressed together under controlled conditions. Meaning squarer, stronger cabinets with no visible screws or fixings. At our state-of-the-art Yorkshire production facility, our team of experts work with only the finest materials and components. The result is a range of kitchens we're proud to call our own. And we're sure you will be too.

**Good design should unite  
elegance and utility**  
- Thomas Sheraton, British furniture designer

# KITCHEN COLOUR

When planning a new kitchen, your colour palette should be one of your first considerations. Effective use of colour can be the difference between a kitchen you like and a kitchen you love. We give you the choice of door, cabinet colour and worktop, allowing you to co-ordinate or contrast.

If your dream kitchen is a minimalist space then white is hard to beat, otherwise a subdued pastel will make a great foundation against which you can accent a bolder feature wall or worktop. When it comes to paint finishes, matt is better used for large areas but considered use of gloss can bring real elegance.

## PLUS 21 PAINTED DOOR COLOURS

To let you express your own unique style, a large selection of Sheraton kitchens are available in a range of 21 stunning, on-trend painted colours. See page 150 for more details.

## TEXTURE

Textures deepen and define a space. Natural woodgrains and fabrics will bring comfort, metals mixed with marble a contemporary feel. Make a feature of a tiled splashback or contrast a glossy finish with soft furnishings.

## PATTERN

As pattern seeking creatures, we take joy in finding and contrasting them. But only so far. As with patterns in music, there needs to be harmony for the effect to be pleasing. Use pattern sparingly in your kitchen with a few subtle contrasts, and they will sing.

# MAKE YOUR MARK

**Y**our new kitchen is the room you'll spend most of your time in, so it needs to be as much an extension of yourself as it is a working space. We'll provide the units, fixtures and fittings to your specification. But the rest is up to you.

Choose your wall paint, appliances, accessories, art, soft furnishings and the like, in harmony with the kitchen you've created. Be bold and make it yours.

**1** Play with lighting, both natural and artificial. Use it to accentuate texture, to highlight colour, or as a feature in itself.

**2** Use accessories and artwork to bring bursts of colour that can easily be changed with shifting trends, or as your own tastes develop.

# ADDING MORE COLOUR

**3** An accent isn't an accent if there's lots of them. Pick a contrasting colour, use it sparingly. Then it'll pop.

**4** Use texture to deepen your colour scheme. By changing how light hits a surface, you'll subtly introduce a whole new set of shades to your palette.

Simplicity. That's the key when it comes to our Shaker range. We've drawn inspiration from the Shakers of New England, who made a virtue of minimalist living.

Neutral, classic lines offer you a world of personalisation. Every element performs its function elegantly, with timeless styling that transcends the trends.

Shaker kitchens revive traditional designs that have enriched family life for generations.

**i** Shakers used pegs to hang up chairs when not in use. See our space saving features on page 172.

# SHAKER.

**S**imple is beautiful. Scandinavians call it Lagom – the Japanese have Shibui, meaning an appreciation of the beauty of silence and subtlety.

For the Shakers of New England, minimalism was a virtue. To craft something useful was considered a form of prayer. That's why our Shaker range strives to achieve beauty through inspired utility.

Light fittings don't always have to serve other aspects of your kitchen. They can make distinctive features themselves, from strip lights to spotlights to floating shelves.

# WE WORK BETTER UNDER PRESSURE

All our cabinets are perfectly pressed together under controlled conditions so they're squarer, straighter and stronger. Which, in turn, means they fit better, last longer and are more than ready to take what everyday life throws at them.

# NOTHING TO SEE HERE

All our cabinets are made to order, using a glue and dowel construction which leaves no visible screws or fixings. The only holes we drill are custom to your specification, resulting in a flawless finish inside and out.

**PAINTED COLOUR OPTIONS**  
Available in a choice of 21 on-trend painted colours.

# TRADITIONAL

Our Traditional range embodies the quiet joy of country living. Binding natural textures with organic hues, our hallmark range brings the rolling countryside into your home.

These are spaces for family gatherings, hearty food, birdsong and the morning paper.

Picture slow cooked winter stews or summer evening cocktails with friends.

The subtlety of a traditional kitchen means your personal touches will sing. With elegant function and classic design, they're the perfect place to start.

# CARRYING THE MANTEL

Since Prometheus stole fire from the Gods it's been keeping us alive. We liked it, so we brought it inside. Then we decorated around it to show it off. We sang songs about burning rings and Norwegian wood. Then at some point, we stopped needing it. But we missed it, so we kept the surround, kept decorating it and passing it down through the years. These days you can have one over your cooker, so when you spark the hob up it takes you back to where it all started.

Thanks Prometheus.

## ALL OF OUR PAINT IS GREEN.

Every single one of our meticulously selected range of 21 paint colours is water-based. That means they don't crack, and they last longer without fading. But above all they're far better for the environment. Everyone's a winner.

Sinks can be dramatic focal points in their own right. Ceramic farmhouse sinks bring a touch of the rustic, where metallic units align more with contemporary style. Take a look at our full range of sink options. **SEE PAGE 160**

**HARMONY IN-FRAME SHAKER**  
INDIGO BLUE, SKY & SLATE

HAPPINESS  
~ IS ~  
HOMEMADE

# MOD-ERN

Contemporary kitchen life opens doors for those who want to bring the theatre of professional cheffing into their own home. Central islands and bar spaces become areas of performance, as friends and family wonder at the alchemy of cookery.

Our modern kitchens celebrate the dance of form and function, with inspired innovations that make enjoying the magic of cooking easy. And if you're more the reflective type, our sleek minimalist styling options will help you to find your peaceful haven.

# HERE'S TO THE ‘ISMS’

**M**odernism in its various strands gave us cubism, surrealism, post-impressionism, the list goes on (and on).

Appearing at the turn of the 20th century, the modernists believed in simplified forms, streamlined functionality and the reconciliation between manufacturing and the individual artistic spirit. Just like us.

So if you're after a little 'ism', you'll find it right here, in one of our modern kitchens.

# GET INTO THE GROOVE.

(WITH HANDLELESS)

Early variations of the handleless door started popping up in the swinging sixties, featuring an aluminium groove that sparkled beneath the orange Formica worktops. The kitchen was becoming a space to entertain, and jagged aluminium gullies were the price to be paid for getting down to The Beatles in amongst the crockery.

Before you knew it, every shindig was starting and ending in the kitchen. Turn to today and our handleless range sets the bar for entertaining spaces everywhere, with minimalist styling and a range of features that make your kitchen the place to be. So you can focus on the important things. Like getting your groove on.

# HANDLELESS KITCHENS

Minimalism is always in style, so we offer three different handleless options to maintain those clean lines you want in your sleek new kitchen. Discover Oblique, Touch and Inset – solutions you'll fall in love with.

## OBLIQUE

With a smart chamfered edge on the reverse of the frontal providing plenty of grip, Oblique doors bring crisp lines and angular beauty.

Stainless Steel

Cashmere

Copper

Dark Grey

Limestone

White

## TOUCH

With our Touch range, doors and drawers are opened intuitively by touch with no need for handles.

One or two units – like appliances and pull-out larders – do still require handles. Luckily, we've got a discrete solution for every possibility, so your handleless kitchen will stay that way.

## INSET

Inset allows all of our slab doors to be designed in a handleless way, featuring a discreet handle on the reverse of the door - almost impossible to notice but effortless to use.

# SHOW ~ YOUR ~ COLOURS

Go bold with our 7 new paint colours: Blush, Turquoise, Slate, Sky, Indigo Blue, Graphite and Heather. And if you don't want to go all out, why not use a bold colour on just the base units or just on your island.

## CABINET SPECIFICATION

**20**  
**YEAR**  
**GUARANTEE**  
on all cabinets,  
hinges & drawer boxes

All our cabinets are made to the highest standards of British manufacturing. They're pressed under controlled conditions to ensure they're perfectly square and totally rigid. They also feature solid back panels, have no visible screws or fixings and are fully edged to protect against moisture, even on the edges you don't see.

All this simply means that your only worry when choosing your cabinets is what they bring to the style of your kitchen. Do you want the warmth of a natural wood effect or a gloss finish?

Extra features like adjustable shelving, soft-closing hinges and anti-tip fittings make your cabinets unique.

### ALL OF OUR CABINETS COME WITH THE BELOW AS STANDARD:

- Adjustable shelf positions
- Fascias can be adjusted in multiple directions to align the doors
- Choice of depth – 300mm or 350mm units
- Choice of height – 576mm, 720mm or 900mm
- Customisable shelf position in double-width units, thanks to a divisional panel in the centre of the unit
- Adjustable legs for fitting base units on uneven floors
- Glass shelves as standard for glazed units
- 50mm service void for ease of maintenance

## YOUR KITCHEN, YOUR COLOURS.

You can choose to contrast or blend your cabinet colour with the doors and drawer fronts, for no extra cost. We offer a range of 11 cabinet finishes in different colours. Matching plinths and frontals, panels and pilasters help you to complete the theme.

Graphite

Graphite cabinets can be matched with graphite frontals, drawers and wirework for a fully coordinated look.

Go to page 176 to view our clever storage solutions in graphite.

## GRASS® SCALA STONE & NOVA PRO

Sheraton kitchens proudly use drawer boxes by GRASS®, a world-class supplier of quality drawer systems. With technical precision and Sheraton style combined, your premium and personalised kitchen result is assured.

The choice is yours between three different drawer options, all fitted with soft-close technology for smooth and silent operation.

## LUXURY OAK DRAWER BOXES

Superior solid oak drawer boxes will add luxury to any kitchen. These are available in both drawer boxes and pan drawers, held together with the traditional dovetail joint, and fitted with GRASS® soft-close runners. Oak is particularly well paired with painted ranges.

## GRASS® SCALA STONE & NOVA PRO ALUMINIUM DRAWER FEATURES

- **Ultra-smooth** – Fully synchronised drawer runners open smoothly and with low force
- **Soft-close** – Smooth and silent action prevents slamming of drawers
- **Strong** – Full extension runners mean load-bearing capacity is 40kg (more than conventional drawer systems)
- **Spacious** – More storage space provided by twin-wall, metal-sided drawer box with straight internal sides
- **Solid base** – A 16mm base delivers extra rigidity and reliability
- **Easy-clean** – Tool-free removal of the drawer and drawer front make thorough cleaning hassle-free

GRASS® CALA STONE (with square side profile). Supplied as standard.

GRASS® NOVA PRO ALUMINIUM (with curved side profile). Supplied as a free-of-charge option.

GRASS® SCALA STONE Pan Drawer with Rails

GRASS® SCALA STONE Pan Drawer with Smoked Glass

GRASS® NOVA PRO Drawer with Rails

GRASS® NOVA PRO Drawer with Crystal Glass

## SMOKED GLASS & CRYSTAL GLASS PAN DRAWER SIDE OPTIONS

Pan drawers are the solution to messy cupboards when it comes to keeping the kitchen sleek and tidy. The traditional railings allow pan handles to protrude, sometimes making it a struggle to close drawers properly. That's why, as well as railings, we offer the alternative option of smoked\* or crystal glass sides. Available free of charge as an optional extra, this chic solution helps keep your pan drawers closing perfectly.

# HANDLES

It's amazing the difference that good handle selection can make to the overall finish of your kitchen. Personalise your Sheraton kitchen with our wide range of stylish and practical options.

## MODERN

## TRADITIONAL

Please note, not all handles are suitable for each kitchen. Most are supplied at no extra charge, however, some premium options do carry a surcharge. Your Sheraton retailer will happily advise you on suitability and cost. All handles are fitted vertically unless specifically stated.

\* Handle suite carries a surcharge. \*\* Handles fitted horizontally.

# SINKS

It's where potatoes are peeled for a hearty Sunday roast. It's where little hands are rinsed after dipping into the cake mix. And it's where your best plates – the ones too delicate for the dishwasher – are washed up ready to entertain guests another time.

That's why we take our sinks seriously. Sheraton's sleek stainless steel products are made of 18/10 – the highest grade available, which is resistant to staining, rusting and corrosion.

Our HYDRA ceramic sinks come in different colours, from black to white, for a striking impression or a classic style. But looks aren't everything: the 80% quartz granite also has anti-bacterial properties, as well as being resistant to heat, burns and stains.

# WORK-TOPS

Our eclectic range of 60 luxurious worktop finishes gives you complete creative control over the base tones and textures of your new space. Bring natural depth and warmth with Dark Mountain Oak, or classical opulence with the Italian-inspired Nero Portoro.

We use the highest quality Duropal laminates, which allows us to alleviate your worries about sunlight damage, scratching, abrasion, coffee stains, tea stains, red wine, ink and small burns. No surprise that Duropal hold the FIRA Gold Award for product excellence.

## THE CUTTING EDGE

Our worktops are available in both Quadra (rounded) and Square edge profiling.

Square is the more versatile, available in 40mm, 22mm and 12mm compact in addition to curved surfaces. Quadra is available in 40mm (with 4 options in 20mm) on straight surfaces. Quadra edging features 'seal-groove' technology that protects from a lifetime of steam and moisture damage.

## AHEAD OF THE CURVE

Improve the flow of your workspace with curved base ends and corner units, topped by meticulously designed curved worktops, available in square edged 40mm and 22mm, in all colours.

## GABLE ENDS

Elevate your surface spaces with a raised gable end, the perfect place to share cocktails with friends and tidy away the barstools when you're done. Available in square edged 40mm and 22mm, in all colours.

Code: LTQISK BL or SL

Pop up Socket with 2 USB pins. Available in Black or Silver  
Code: LTKT BL or SL

Nothing could be more enjoyable than selecting the individual features that help set your new kitchen apart from the rest. Sheraton serves up a whole menu of different design options to choose from. Combine stylish touches and practical innovations to achieve the customised result you deserve.

### WALK-IN CORNER LARDER STORAGE

Corner cupboards are tricky things. While there's plenty of space in there to store foodstuffs, the depth means that all too often items get hidden, lost and forgotten. With that in mind, we designed our walk-in corner larder unit, with fully accessible storage and even a full-height wine rack.

Or you might choose the standard corner larder unit which also provides easy access and includes four Kessebohmer LeMans storage systems.

### DRAWER OPTIONS

You might never have thought about it, but the way kitchen drawers are arranged – as well as their number – can differ from kitchen to kitchen. The right configuration of deep pan drawers<sup>(1)</sup>, contrasted with shallower top drawers<sup>(2)</sup>, will deliver the best storage and visual effect for your kitchen. Your Sheraton retailer will be happy to help you find the perfect fit.

(1)

(2)

### L-SHAPE CORNER UNITS

Specially designed to get the most out of these hard-to-reach spaces, our L-shape corner units are available in different sizes and are ideal for everyday accessible storage.

### USING UNITS DIFFERENTLY

It's time to take a fresh look at kitchen units. With Sheraton you can create your very own unique design. For example, you could take a humble bridging unit and combine it with open plan shelving, creating a whole new design feature that's practical as well as attractive.

### GLAZED UNIT

It's time to turn your wall units into eye-catching features. With one of our glazed wall unit designs, you can turn a cupboard door into a cupboard window. Not only does this add a touch of chic, it also saves you opening every cupboard to check what's inside.

### CHUNKY PILASTER

Add elements of traditional flair such as pilasters, small pillars that work perfectly with a Sheraton kitchen. This means you can take complete control of building the right look and feel for your space.

### LARDER UNITS WITH OAK DRAWERS

Few things beat the dignified beauty of real oak wood. That's why, for our larder and pantry unit options, exquisitely crafted oak drawers are available in a variety of heights and styles. Experience the satisfaction of good taste each time you reach for a jar or a ramekin.

### LIFT-UP WALL UNITS

Sometimes you need access to a storage space for longer, for example while cooking. But leaving cupboard doors open is unsightly and unsafe. Enter the lift-up wall unit. This flap door opens upwards and remains open until you're ready to close it. Built-in soft-close technology means you'll never have to hear it slam.

### WORKING MANTEL

Give your space the solid respectability of a Victorian kitchen with an attractive mantel. Select from an array of veneered and painted finishes, then enjoy the extra storage as well as the vintage vibes.

### CURVED CORNER UNIT

This sophisticated approach removes the angles from corners and adds a sweeping line instead, with a curved door that will suit both contemporary and traditional interiors. Pairing perfectly with curved laminate worktops, curved corner units are available with these kitchens: In-Line\* (all colours), Elegant (all colours), Chamfered (all colours), Character (all colours), Manor House Painted Shaker, Painted Shaker (all colours).

\*Please note the curved unit used for In-Line ranges is supplied with two doors

### WICKER BASKET

For a real rustic touch, we recommend wicker basket storage. As base units they are ideal for larder-style storage, and the soft materials will add a note of warmth and tradition to your new kitchen.

A fully functional, highly organised kitchen is also a beautiful one. Especially when it comes with a host of ingenious features and accessories designed to make life easier while looking great as well.

Our cutlery drawers and utensil dividers are expertly designed to provide maximum practicality, with a wide range of stylish options to choose from. Whether you opt for plastic or luxurious oak finish, your retailer will help you decide the perfect combination of trays and dividers, to suit the width of your drawers.

- 1. Oak cutlery drawer inset
- 2. Cutlery inset with foil dispenser, knife block and glass pot accessories

- 3. Pull-out bin units
- 4. Swing-out removable recycling bins
- 5. Swing-out cylinder waste bin
- 6. Pull-out combi waste bin
- 7. Rectangular waste bin

- 8. Removable oak storage boxes and removable oak pegs to keep crockery secure.
- 9. Drip tray
- 10. Pull-out towel rail and tray space

LINERO MOSAIQ  
MIDWAY SYSTEM

Supplied conveniently as one handy pack, this midway rail system delivers beautiful form and practical function. With two 600mm rails, shelf, pot (with quiver), two utensil hooks and a kitchen roll holder, your most useful items will always be close at hand.

## A line drawing of a modern kitchen interior. The layout includes a central island with a sink and a range hood, a breakfast bar with two stools, and a large window on the right wall. The drawing is a simple line art illustration showing the basic structure and layout of the kitchen.

**D**uring the kitchen planning process it's useful to imagine not just how you'd like the space to look, but just as importantly, how you typically use your space every day. Where are the pots and pans kept? How easy is it to see the contents at the back of my shelves? Can I actually reach every area of my cabinets, or am I planning wasted space?

All of our kitchens come with the optional addition of Clever Storage products from Kesseböhmer; the best of German engineering that means your new kitchen design won't just look great, but will make time spent unpacking shopping, preparing meals, and tidying up both quick and easy.

## OPTIONS

1. DISPENSA - Remarkably tidy storage space. The trays can be individually hung at heights to suit the contents, making DISPENSA a flexible solution providing a lot of storage with a very small footprint.
2. DISPENSA - SWING This supply cabinet that's really got that swing. When it is fully pulled out, it can be rotated 90° on its own axis so that either side can be turned to the front as required.
3. DISPENSA - JUNIOR Wave goodbye to waste. Slim base cabinets are notorious places for food which stays hidden until it's no longer edible. The DISPENSA Junior allows for instant visibility and access to all areas of the unit in one motion.
4. CONVOY - PREMIO creates an emotional connection when you open or close it: The contents glide out of the cupboard, moving directly towards you so that you can reach them from three sides. With CONVOY Premio stocking up on food becomes a real adventure.

Products are available in both matt silver and anthracite.

5. IMOVE - The intelligent pull-down system for wall units. Having wall units in your new design doesn't have to mean balancing on a chair or keeping a step stool handy; the iMove allows for easy accessibility to difficult to reach spaces, meaning wall cabinets can be fully utilised by everyone in the household.
6. LEMANS - Easy Accessibility is just around the corner. If you're planning an "L" or "U" shaped kitchen then you will need to tackle the tricky corner space which will otherwise be wasted. With height adjustable trays that each pull completely out of the cabinet individually and boast a market leading weight and size capacity, the Kesseböhmer LeMans is the world's best-selling corner solution.

**reddot design award**

Experience the design every time you reach for a pot or pan with the LeMans Corner Storage system, awarded the Red Dot Design for outstanding design achievements.

7. NO. 15 - Extra storage space and functionality. With the right fitting, narrow gaps can provide a surprising amount of storage space and functionality.
8. TANDEM SOLO - The characteristic opening experience. One gentle pull opens the door and draws the fitting forward so that all the contents are in full view and easy reach.
9. TANDEM ACCESS ALL AREAS - No other solution gives you the same level of visibility and accessibility of your groceries. The Tandem Larder allows for storage of a whole week's worth of groceries in just one unit; so don't waste time searching through individual drawers, and don't waste money losing food at the back of your shelves until its past its best

Products are available in both matt silver and anthracite.

# PLANNING

As exciting as designing your kitchen can be, it's still an investment that needs care and consideration. Proper planning can result in a more functional, enjoyable space that stands the test of time.

Our trusted retailers are on hand to guide you through the process, but here's five things to think about before you begin.

## 1 LAYOUT

Take a look at your existing kitchen. How could the space be better used? Do any walls need to be knocked through? Take measurements wall-to-wall and come up with as accurate a floor plan as possible. Think about the appliances and features you'd like to include and how to arrange them, then bring your plans to one of our expert retailers.

## 2 EXPERTISE

A specialist will go through your plans with you and make sure you haven't overlooked anything. The last thing you want is doors knocking into each other, or areas of restricted movement. Less is more – prioritise space over features.

## 3 DOORS & WORKTOPS

Here's where the fun starts. Take a look at our extensive range of door styles, worktops and paint options. Experiment with texture and pattern, perhaps even contrast door colours between base and wall cabinets. Just remember to enjoy the process – play around and find what works for you.

## 4 STORAGE SOLUTIONS

We do storage differently. From our world of customisable organisation options to cutting-edge innovations from Kesseböhmer, including the award winning LeMans corner system – we make sure that even the most limited storage space is used optimally. Meaning your sides are always clear, and everything is where you want it to be.

## 5 FINISHING TOUCHES

Time to choose your door handles (unless you've gone handleless), sink and taps, lighting, drawers and design features. You can even start getting inspired about accessories – see our Instagram – but once you're happy with all of your choices, let our retailer know and we can start the ball rolling.

# FAQS

**?** You're bound to have some questions. To help you out, we thought that we'd answer some of the more frequently asked ones. If your specific question isn't covered below, please just contact your approved Sheraton retailer who will be sure to assist.

### Where can I see displays of Sheraton kitchens?

Just visit your local Sheraton retailer to see a selection of our displays and a full set of doors. To fully appreciate the quality our kitchens it's always better to see them in person.

Find your nearest Sheraton retailer at [sheratonkitchens.co.uk/find-a-retailer](http://sheratonkitchens.co.uk/find-a-retailer)

### What's the difference between a true rigid cabinet and a flat-pack assembled cabinet?

All Sheraton kitchen units are true rigid cabinets. They are assembled by skilled craftsmen in our factory, using the very latest technology. The difference between the two cabinets is that true rigid units are assembled using glue and dowel, rather than cam and dowel. This ensures a better overall finish as there are no visible fixings or redundant drill holes. All of our units have door, drawers and accessories pre-fitted.

### Can I buy direct from Sheraton?

Sheraton kitchens are manufactured Omega PLC and are only available via specialist retailers. This is to ensure specific knowledge is used to produce your ideal kitchen.

### How long will it take me to receive my Sheraton kitchen?

Sheraton kitchens will be delivered within 3 weeks from the order being placed by the retailer. Painted kitchens are available within 4 weeks from order placement.

### What happens if I pay a deposit to a retailer for a Sheraton kitchen and they cease trading before my kitchen is delivered?

This is unlikely, but we do run a Deposit Guarantee Scheme. This ensures that you'll still get your Sheraton kitchen furniture at the current manufacturer's recommended retail price list, less the deposit paid on furniture. This is under the proviso that the amount paid to the dealer doesn't exceed 50% of the manufacturer's recommended retail price.

### Do your kitchens carry a guarantee?

All Sheraton kitchens come with a 20 year guarantee on all cabinets, hinges and drawer boxes; a 15 year guarantee on doors and selected accessories. All products manufactured or supplied by Omega PLC will be free from defects in material and workmanship for the full duration of the guarantee, or else be replaced or repaired (at our discretion) free of charge. Subject to terms and conditions. Please see [omegaplc.co.uk](http://omegaplc.co.uk) for full details.

### Do you charge for delivery?

All of our kitchens are delivered FREE\* direct to your home and our two-man teams ensure your new kitchen is delivered with care and professionalism.

### Are you KBSA accredited and what does that mean for me?

Yes, Sheraton kitchens are KBSA accredited and dedicated to upholding the Association's high standards of design, supply, installation and customer service. All members follow an approved Code of Conduct and are subject to strict monitoring to make sure you get the best professional service available. For further information please visit [kbsa.org.uk](http://kbsa.org.uk)
