Introduction

RAMSBOTTOM
Kitchen
Company

Ramsbottom Kitchen company began trading in 1996. Initially based down a little side street in the heart of Ramsbottom, we set out with a vision to create kitchens that our customers could be proud of but not just that but also kitchens our customers could have the confidence that the quality of our kitchens would ensure they could last for decades.

Throughout our 20+ years of trading we have remained committed to that vision.

You can think of Ramsbottom Kitchen Company as a one stop shop. We can handle everything from start to finish: Furniture, appliances, worktops, fitting, plumbing, electrics, you name it!

We also offer a full free design and quote service. We will come to your home, measure, design your new kitchen (with 3-d renderings) and quote, all free of charge!

We can't wait to start your journey to your dream kitchen.

Whatever style of kitchen or budget you have in mind, we know that a new kitchen is one of the biggest investments that a homeowner will make. It's for that reason that we don't push for a 'hard sell', we simply let our 20 years of experience do the talking.

Our spacious showroom has recently been transformed with the latest kitchen designs ideas and trends.

FAQs

How much is a new kitchen going to cost?

Probably the number one asked question. Really there is no definitive answer and is a case of 'how long is a piece of string?'.

There are several factors that come into play when we cost for a new kitchen. The most important thing is that we can cater for every budget. Our design team each have over 20 years experience and will work closely with you to make sure that you not only have a design that you love but at a cost that is right for you

What is involved in getting a quote?

We offer a full kitchen design and quote service, free of charge.

Our designer will meet you at your home and discuss a "wish list" of what exactly you are looking for. Once they've done that, they will measure your kitchen and arrange a suitable time and date for you to come back to the showroom.

The designer will then go away and put together a design (complete with 3D renderings of what your new kitchen will look like) and full quote. They will then present this to you at the showroom, where you can fine tune your design and plans

What areas do you serve?

Our general rule of thumb is about a 25mile/40km radius of our showroom.

However we have done kitchens much further away than that. Even ones in Devon, Spain & Ireland. The best thing to do if you think we might be too far for you is to visit us in the showroom or ring and speak to us, and we will be happy to have a conversation about whether we can accommodate you.

Can I send you architect or builder's plans?

Yes, of course. If you are planning an extension, barn conversion, new build etc and have architect's plans for it then we will happily do a design and quotation based off these. We can work closely with your builders so that the timing is as streamlined as possible.

Either bring them to the showroom or email them to us at Info@Ramsbottomkitchens.co.uk

How long does installation take?

We have a lead time of four to five weeks for the manufacturing of the kitchen furniture. After that installation, including removing your old kitchen, takes between two and three weeks.

How much is the deposit for a kitchen?

£10 for kitchens under the value of £15,000. £1000 for kitchens over the value of £15,000. The remaining amount is paid for on delivery of your furniture and appliances.

Do you handle the fitting?

We certainly do! Unlike other kitchen retailers, who would expect you to find your own tradesmen to handle the installation, we can do the lot! We have a team of qualified and trusted fitters, electricians, plasterers, plumbers, tilers, everything. We can do everything from start to finish.
