# Building the Best of British

We're proud to be Britain's leading supplier of premium quality kitchens. In 25 years, we've enjoyed continued growth by manufacturing beautiful, quality kitchens.

Our new warehouse and office building at our site in Yorkshire. Officially opened by Her Royal Highness Sophie, Countess of Wessex.

With a range of kitchens designed and manufactured using the finest British craftsmanship and the latest cutting edge technology, we can offer a beautiful kitchen made to your bespoke order.

Offering an extensive choice of door styles, accessories, cabinet finishes and colours, our diverse collection allows your dream kitchen to become a reality. The kitchen you buy will not only be beautiful to look at, but will also stand the test of time in any busy home.

# There's No Place Like Home

Not only do we want to give you a kitchen to be proud of, we also do our bit to take care of the place we all call home.

## Nothing goes into landfill

When we make your kitchen, any waste we create that cannot be recycled, is incinerated to create energy.

## Trees we use are replanted

We are Forest Stewardship Council (FSC)® certified, meaning that trees that are harvested are replanted or allowed to regenerate naturally.

# Working closely with the furniture industry

- > **Forest Stewardship Council®** certified forests are managed to the highest environmental, social and economic standards - with respect for the environment, wildlife and people who live and work in the forest. 
- > **Furniture Industry Sustainability Programme** promotes best practice to drive environmental change. 
- > **The Furniture Industry Research Association** supports the furniture supply chain, providing guidance on compliance with sustainability and quality testing. 
- > **The Home Specialists Association** upholds high standards of design and supply. 
- > **British Institute of Installation** is a government sanctioned organisation, dedicated to improving installation standards within the industry. 

# Your Style, Your Kitchen

Our extensive collection of 22 painted colours allows you to create a truly bespoke feel to your new kitchen.

We have partnered with celebrity chef, Prue Leith. Prue loves injecting personality through colour and our paint collection, which offers something for everyone. Working together is a match made in kitchen heaven.

*I love colour. It is such a great way to express personality and can make your kitchen unique. Sheraton's bold colours can easily be paired with their sophisticated muted colours to create an eye-catching yet modern kitchen.*

Every one of our paint colours is water-based. That means they don't give off harmful chemicals into the atmosphere. They don't crack, and they last longer without fading. But above all they're far better for the environment.

## British Racing Green

**BOLD  
NEW  
COLOUR**

### A BRIEF HISTORY

British Racing Green takes its name from the green international motor racing colour of the United Kingdom. This originated with the 1903 Gordon Bennett Cup, held in Ireland, as motor-racing was illegal in England. As a mark of respect, the British cars were painted shamrock green, which evolved into the name British Racing Green.

## The Perfect Choice

A modern twist on an elegant classic - British Racing Green oozes traditional charisma whilst adding a modern edge to any colour scheme. This luxurious colour will add endless depth when included in any colour palette. Pair it with marble worktops or splashbacks to enhance that built-to-last feel.

# Super Gloss

Super Gloss White  
shown left with  
Gladstone Oak.

If you are looking for the crispest, brightest white, our Super Gloss White is the perfect choice for you. It is super bright, incredibly luminous and distractingly pristine. While you may not want to sully the perfection of this brilliant finish, add a pop of colour, or warmth of wood for a less minimalist look.

# Oblique Gloss

The discreet chamfered edge of our Oblique door allows for a sleek design. Combined with the new choice of gloss shades this simple, unfussy design now adds even more impact.  
**Shown here in Graphite and Limestone.**

# Super Matt

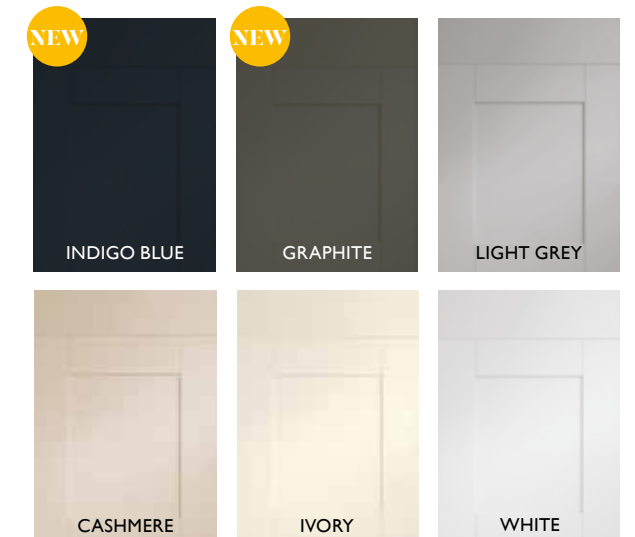

Matt doors create a sense of refined luxury and understated elegance. The muted appearance absorbs light instead of reflecting it so even in low lighting, it maintains its base colour and subtle hue. **Shown left in Marine and Quartz.**

# Nouveau

To create a dramatic, bold look with an air of tradition the new Graphite and Indigo colours are a luxurious addition to the Nouveau doors which bring a kitchen completely up-to-date. **Shown left in Indigo Blue and above in Graphite.**

# The Inside Also Counts

For sleek, streamlined coordination match our new light grey cabinet with a classic light grey door. Or, for something with a little more drama, pair in with striking Oxford or Indigo Blue. Whatever your style, we now have even more choice for you.
