COSENTINO INCREASES THE DEKTON RANGE WITH A
NEW SERIES OF 7 ELEGANT AND TRANQUIL COLOURS
ALL EVOKING A FEELING OF BEAUTIFUL CALM.

We have listened and we have responded to the latest trends in design with our idea of a nearer future: a well-adjusted space, full of calming shades, perfectly integrated into any environment.

The 2015 Spring series combines all the properties that make Dekton a unique product: the ultracompaction inspired by a natural stone process, its non-existent porosity, its thinness large

formats and durability that make Dekton resist everything. Also, it offers material versatility that will adapt perfectly to any environment; horizontal or vertical, interior or exterior, bathroom, kitchen or garden.

Seven new calming and subtle choices to increase our catalogue of ideas, where Dekton is able to provide any solution.

DEKTON ULTRACOMPACT SURFACE

LARGE FORMAT INFINITE POSSIBILITIES

Thanks to the size (up to 3200 x 1440 mm) and the lightness of Dekton (from 8 mm thick), the design possibilities for your kitchen, bathroom, façade, walls or high transit floors are growing exponentially.

IT RESISTS EVERYTHING

Extremely resistant to scratching, virtually zero porosity and highly resistant to aggressive chemical products.

RELENTLESS IN HEAT

Extreme resistance to high temperatures, cookware fresh off the hotplate and UV rays.

UNLIMITED INSPIRATION

Design your modern kitchen with eye-catching colours and unique textures. Large format for new compositional solutions.

A WORKTOP TO BE ENJOYED

Easy maintenance, no traces of fingerprints or marks and maximum durability. Your Dekton worktop is guaranteed for 10 years.

WHAT IS DEKTON?

Dekton® is a sophisticated mixture of raw materials used to make glass, latest-generation porcelain tiles and quartz surfaces.

Dekton emulates in a few hours what takes nature thousands of years, through an exclusive technological process.

PST PARTICLE SINTERING TECHNOLOGY

PST is a process that sinters mineral particles so that they link up and change their internal structure.

PST technology completely synthesises innovative procedures from the most advanced technology industries. This evolution represents a technological and industrial leap capable of

generating a new process, a revolutionary material and a leading product.

Dekton uses the exclusive PST technology, a technological process that uses an accelerated version of the metamorphic changes that natural stone undergoes from exposure to high pressure and high temperatures for thousands of years.

The electron microscopy can appreciate the reduced porosity of the material, due to the sintering process and exclusive ultra-compaction of Dekton. It is virtually zero porosity and the non-existence of the microflaws that cause tension and weaknesses set Dekton apart from other materials.

STAIN-RESISTANT

Because of its virtually zero porosity, the new surface Dekton is highly resistant to everyday domestic stains and chemical agents. Even the most stubborn stains such as wine, coffee, ink and rust can be easily cleaned.

Splashes and drops of everyday cleaning products such as bleach or degreasing oven cleaners do not cause any harm to the material.

SCRATCH-RESISTANT

Dekton is a surface that is virtually impossible to scratch. Household utensils and other sharp objects do not scratch the material. However, we recommend the use of cutting boards to prevent blunting any household utensils.

MAXIMUM RESISTANCE TO FIRE AND HEAT

Dekton has very good resistance to high temperatures without affecting its aesthetics or its properties. Hot utensils, appliances, pots and pans can be placed directly on the surface without any danger or harm.

COLOUR STABILITY

The Dekton manufacturing process allows us to control the pigmentation and aesthetics of the material, giving it a better colour consistency in all slabs.

The result is a product that does not fade over time. Once fitted, the surface will maintain its appearance throughout the life of the product.

KITCHEN WORKTOPS

DEKTON is a long-term product for those looking to turn their kitchen into a unique space. It allows greater potential for installation in one piece with no cuts, no joints and no limits. It has the appeal of a completely uniform surface, which fits seamlessly into very different design styles.

DEKTON combines the qualities expected by the chef in all of us. It is a clean surface that is nice to touch and resistant to all the daily grind that takes place in a kitchen over years of use. It is an ultra-sophisticated material for busy everyday life, capable of creating spaces that make the day

to day preparation of food a pleasant experience that precedes the pleasure of sharing a meal with friends or family.

It represents beauty and solidity with easy, fuss-free cleaning. The structural density of DEKTON is a breakthrough in engineering, but what really matters is that you do not have to worry about scratches, stains or traces of heat. A simple wipe with a cloth is all it takes, because the kitchen should be enjoyed with no restrictions, this is the DEKTON way of thinking.

HIGHLY UV-RESISTANT

Dekton is highly resistant to ultraviolet (UV) rays and its colour does not fade over time, which makes it a perfect material for both indoor and outdoor use.

OUTDOOR KITCHEN COVERING

Cook with the sky as a roof

Cooking is definitely a pleasurable experience and doing it outdoors usually results in a small social event, such as everyday celebrations that we can enjoy in company around a grill. DEKTON, due to its ultra-compact structure, is particularly suitable for installations for outdoor kitchens and barbecues.

DEKTON provides strength and style to these spaces, it gives them an undeniable personality and unlimited practicality. Stains, bumps, utensils and high temperatures... DEKTON will resist the demanding use over time while maintaining its unchanging beauty.

It is not affected by ice, sun, sleet, or wind either. When bad weather arrives, DEKTON simply needs an effortless, fuss-free clean with a cloth.

BATHROOM WALL CLADDING AND WORKTOPS

The bathroom is the space in the home where hygiene and harmony need to express themselves in the best possible way. A space for personal hygiene and care, which helps us experience pleasant and relaxing moments, where sensations are literally at our finger-tips.

DEKTON, thanks to its virtually zero porosity, is completely waterproof for liquids. Water

glides smoothly over the surface without ever penetrating. This, along with unchanging beauty, results in extremely easy cleaning.

Their textures and colours are an endless source of inspiration for the design of water-related areas, we're talking about DEKTON, its possibilities are endless.

DEKTON WARRANTY

Dekton is the only brand that offers a certified warranty in writing. Only a global leader, due to the company's position as the largest producer of quartz surfaces could once again draw ahead of the pack and offer a real 10-year warranty for Dekton.

Dekton presents its new 10-year warranty. A guarantee to give consumers more confidence. Once again Dekton proceeds to innovate. The guarantee of the leader.

Warranty terms and conditions *

10-year Warranty for Dekton products installed by a workshop or stone mason:

1. For the warranty to take effect, the user must produce proof of purchase.
2. The warranty does not cover defects deriving from manufacturing or installing the product, as such operations are not performed by Cosentino.

CERTIFICATES

Dekton® is internationally certified to ensure maximum safety and protection.

NSF

Certification that substantiates that the product is safe for the health in hygienic terms.

ETE

Dekton® by Cosentino is being assessed by the ITeC (Instituto de Tecnología de la Construcción de Cataluña) as a product for ventilated façades.

Greenguard

Certification that substantiates the low emissions of chemical compounds.

ISO 14001

Accredits the efficiency in the use of water systems and the control of environmental risks.

A Grand Slam tournament is won after thousands of shots.
It puts competitors and oneself to the ultimate test.

It is also our way to put DEKTON to the test.
By subjecting it to an unlimited effort,
by challenging its uses, technology and unlimited design.
Create anything you could ever want with DEKTON.

DEKTON IS UNLIMITED.
