Why choose Rangemaster?

With a Rangemaster at the heart of the kitchen, the kitchen is always the heart of the home. That's why you'll find a Rangemaster in more homes than any other range cooker. So, why buy a Rangemaster? If being Britain's No.1 range cooker manufacturer isn't reason enough, read on to find out why we're in more homes than any other.

01

Style and choice.

We offer the biggest range of style, size and fuel types making it easy for you to find the perfect Rangemaster for your kitchen.

02

A family of over 1 million owners.

When you buy a Rangemaster, you're joining our family. Today, much has changed at Rangemaster but our principle of creating, beautiful, functional, market leading appliances built by hand in Royal Leamington Spa continues to underline our success.

QUALITY ASSURANCE

03

The right ingredients.

It can take weeks to carefully craft a Rangemaster. The highest gauge steel is pressed, cut, washed, polished, and finally enamelled with Endurance finish. The frame is triple folded, creating a unique encasement for some of the highest quality components you'll find.

04

Quality and testing.

We test, re-test and test again, refining our products to offer the best results; we are passionate and proud of making the finest quality range cookers on the market.

05

When it comes to cooking; experience matters.

There's over 185 years of manufacturing excellence at our factory in Royal Leamington Spa. Generations of local families have all played their part in making Rangemaster the success it is today. Our people are passionate and proud of making the best Range cookers on the market. We call it... **Built from experience**

CHOOSING YOUR COLOUR...

While Stainless Steel looks fantastic in many kitchens, it needn't be the only choice. Bring your kitchen alive by choosing a range cooker from an array of stunning colours.

Falcon 1000 Deluxe in Cherry Red.

#CoastalRetreat

YOUR DESIGN.

YOUR STATEMENT.

a range cooker for every style

Buying a new cooker is a big decision, so to help you decide which Rangemaster model is for you, we've created a Style Guide on the most popular kitchen looks. Each theme is a popular trend that offers something for everyone; from the traditional feel of Country Farmhouse, Classically Shaker and Parisian Chic to the contemporary look of Simply Modern, Urban Industrial and Scandinavian Living.

We've also covered kitchens with colour in our Eastern Inspired, Coastal Retreat and Colour Statement schemes. With plenty of inspiration to get you started, our mood boards will help you pinpoint the look that suits you and your home. We've also suggested some Rangemaster models to suit - each carefully chosen for its looks, functions, features and finish.

Capture & share your favourite styles and collect ideas for your new project.
#Rangemaster #Theme

*Compact kitchen?*

Don't be fooled into thinking that range cookers are only suited to homes blessed with big kitchens. In reality of course, there's no reason those with compact kitchens shouldn't benefit from a feature-packed range cooker.

In fact, designers recommend creating a focal point in a small space and what better solution than an eye-catching range cooker positioned centre-stage? If space is restricted, opt for a 90cm-wide model, which offers all the features of the larger sizes.

#UrbanIndustrial

Rangemaster NEXUS 110 in Stainless Steel. Image courtesy of John Lewis of Hungerford.

Mixed metal, Grey and warm reds create an industrial look in your kitchen.

urban INDUSTRIAL

Perfect for open-plan spaces and loft living, the urban look is all about raw, natural materials and a stripped-back utilitarian feel with exposed brickwork, reclaimed timber shelving, poured concrete worktops and flooring and old-school pendant lamps. Think chunky taps, rectangular wall tiles and plenty of metallic accents with steel and copper added to the mix.

Use Blue, White & Cream
for a nautical theme.

COASTAL retreat

The nautical trend is a fresh, contemporary take on the New England style with hues of blue and crisp whites taking centre stage. Painted wooden cabinetry makes a statement while marble surfaces, brushed steel brassware and glossy brick tiles add a sophisticated finish.

Accessorise with fisherman's pendant lamps, striped fabrics and sanded wooden flooring.

Your budget will ultimately decide where you buy your kitchen but remember, your money won't be spent entirely on the kitchen units and appliances, there are other costs involved too. Will your project involve building work? If so, are you planning to organise it yourself or are you looking for someone else to do it for you?

Even the simplest kitchen redesign is likely to involve builders having to remove the old units and you may need electricians and plumbers too if you're changing your layout. Consider flooring and worktop choices carefully as under floor heating will impact on what floor you choose and may have cost implications too. This will all need to be decided before you start the project so that you can work out how much you have to spend and what you need to spend money on.

PARISIAN chic

Elegance and charm go hand in hand for a kitchen adorned with French flair. Appliances offer detailed finishes and powerful gas burners for serious home cooks while copper cookware is easily accessed on open shelving and hanging rails. Cabinetry in a distressed painted finish enhances an iridescent wall tile while chevron flooring adds to the rustic look.

Macarons

Enjoy these small tasty French Macarons at your next dinner party or pop them in a box to give as a great gift!

INGREDIENTS:

- 125g/4oz ground almonds
- 200g/7oz icing sugar
- 3 medium egg whites
- 2 tablespoons caster sugar
- ½ teaspoon cream of tartar
- 1 teaspoon of food colouring of your choice

METHOD:

- Line 2 baking trays with baking parchment. As a guide for piping draw a 5cm/2inch circle onto the paper.
- Mix the almonds and icing sugar together in a food processor.
- Whisk the egg whites gently until stiff peaks form when the whisk is removed.
- Slowly whisk in the cream of tartar and caster sugar into the egg whites.
- Fold in the almonds and icing sugar with the food colouring gently.
- Spoon the mixture into a piping bag fitted with a plain 1cm / ½ inch nozzle.
- Pipe 5cm/2inch circles onto the lined trays allowing room for expansion during cooking. If the tops are not smooth, use a wet finger to level the tops.
- Tap the trays to expel any air bubbles and leave the macarons for 1 hour. When they are no longer sticky they are ready to go into the oven.
- Bake at 160°C conventional oven, centre shelf (you may need to interchange the trays halfway through cooking), 150°C fan oven, and gas 2.
- The macarons will still be soft and chewy in the centre but set on the top.
- Carefully remove from the parchment to cool.

The macarons are delicious as they are but can be sandwiched together with some chocolate ganache.

Melt 100g chopped dark chocolate with 100ml double cream gently, stirring occasionally until smooth.

Allow to cool completely and then use to sandwich the macarons together and chill before serving.

#CountryFarmhouse

Rangemaster Classic 90 in Black.

Pastel colours including Pink & Blue help create a shabby chic look

country FARMHOUSE

Forget twee and traditional, this style blends shabby chic with a classic, timeless feel that suits all interiors. Timber worktops are teamed with wooden cabinetry in a soft, muted palette while appliances are robust and sturdy. Make an impact with a butler sink and finish with stone flooring and a practical wooden table and chairs.

^ BELFAST SINK & TAP

Incorporate a traditional Rangemaster Ceramic sink and Belfast tap to complete the look.

#SimplyModern

Rangemaster NEXUS 110 in Black.

Neutral and light shades create a clean modern feel.

OPAL HOOD >
Complement your range cooker with a sleek Rangemaster hood. See page 75.

simply MODERN

Less is more for this look, as this modern style focuses on clean lines and a clutter-free finish. Flush-fit hobs and sinks and a professional-style range cooker complement handleless slab doors while a palette of whites, greys, metallics and timber will enhance the sleek, contemporary effect. Storage is also key with clever corner units, larders and pull-outs maintaining the minimal feel.

GEO 4-IN-1 TAP
Dispensing hot, cold, filtered and 98° water, GEO from Rangemaster is the perfect kitchen addition.

Kitchen Layouts

Another consideration when it comes to choosing appliances is to look at the layout of your kitchen...

U-SHAPE

A compact yet efficient design, the traditional U shape easily allows for the 'working triangle' of cooker, fridge and sink. If there's no room for a dining table, it may be possible to turn one leg of the 'U' into a breakfast bar.

L-SHAPE

With two adjacent, perpendicular walls, this layout is suitable for small and large spaces and is ideal for open-plan schemes. There's plenty of room for multiple cooks and usually enough space for a dining table in the centre.

G-SHAPE

To make the most of every inch, the G-shaped kitchen features a fourth 'leg' attached to one side of a U-shaped design, perfect as a breakfast bar for casual dining.

WITH ISLAND

Larger rooms can be more flexible with an island in the centre for food prep, storage, cooking, dining and entertaining. This enables you to create zoned areas with enough space in between for cooking, cleaning and chilling.

ONE-WALL KITCHEN

Typically found in smaller homes, the one-wall design keeps all appliances, worksurface and storage within easy reach. Pocket doors and sliding panels can be used to conceal the kitchen in a studio or open-plan interior.

GALLEY

Functional and practical, the galley kitchen makes good use of a long, narrow space with rows of cabinets on opposite sides of the room. Installing appliances and the sink on one side helps to minimise mess.

Rangemaster NEXUS 90 in Stainless Steel.

#EasternInspired

Rangemaster Elise 110 in China Blue. Image courtesy of DeVol Kitchens.

EASTERN inspired

A Moroccan theme is a great way of introducing colour and pattern to the kitchen. Use wall and floor tiles in bold intricate prints, add a feature area to an open-plan kitchen-diner with fabulous wallpaper and showcase an exotic selection of herbs and spices. Finish with Moorish inspired crockery, lanterns, cushions and plenty of leafy houseplants.

Worksurfaces

Before you choose your materials you should think about the kind of look that you want to create in your kitchen, you should also take into account whether or not you need your worktop to be heat resistant, water resistant or scratch resistant. The most popular types of worktop finishes are:

WOOD

Available in hardwood and softwood, this material suits all kitchen styles and looks great on a kitchen island, you can alter the shade and type of wood to make it work with your kitchen style.

COMPOSITE

Composite materials are made from two or more materials which have different chemicals. This type of material looks great with dark and dramatic colours such as grey, navy and black, add some white in your kitchen to create a modern look or if you want something more traditional then composite can also be paired with neutral creams and browns.

GRANITE

Granite is a type of igneous rock and is made from minerals such as quartz, mica and feldspar. With granite you can work with different finishes to create the look that you want because there are so many varieties.

LAMINATE

Laminate is a great material because it has the ability to resemble other materials.

GLASS

Glass is a popular material if you want to create a modern and contemporary kitchen, it's available in different colours too.

STAINLESS STEEL

This material can come across as quite harsh but if you pair it with softer colours and materials it can work well in a contemporary kitchen.

#ColourStatement

Falcon 900 Deluxe in Black.

< **HI-LITE HOOD**
Add a contemporary hood for an added statement. See page 75.

COLOUR statement

Choose your favourite colour and use it to create a unique kitchen packed with personality. Cabinets come in all shades - high gloss for a modern look or painted timber for a classic feel - while appliances can create a focal point with wow factor. Paint walls in a bold shade and pick pops of colour for accessories and small appliances.

^ **GLASS SPLASHBACKS**
Protect your wall from cooking splashes and spills with our selection of splashbacks. See page 78.

Planning your kitchen colour

Choosing a colour for your kitchen will depend on the look that you want to achieve. If you like to keep it minimalistic, like a modern kitchen, then you may enjoy natural tones such as white, grey, brown and black, which are great colours because they are easy to work with - they provide a great base and are easily accessorised. Neutral colours for the walls also enable you to have more fun with the colour of your cabinets and worktops and they show off stainless steel and copper perfectly.

Colours such as red and yellow are said to stimulate the appetite and make great accent wall colours in a kitchen, reds and oranges also work well with dark wood cabinets and flooring. Greens and blues make a room feel light and airy and are also calming colours, which can be good for a busy kitchen, but if it's too light, it can make it feel cold, so warm it up with a darker worktop material.

If you want to add some depth and character to your kitchen then work with different hues and tones of your preferred colours - you should also take light into consideration as colours can look different in different lighting.

FINISHES

Choose from a range of finishes to complete the look of your kitchen: high gloss, matt, smooth and high-definition are all popular finishes and when paired with different colours and materials they each create a different effect.

TOP TIP

Don't forget to plan your lighting. Make sure that task areas are properly illuminated and you have good lighting that you can alter or dim to create a relaxed atmosphere.

Rangemaster ENCORE DELUXE 110 in Black.

#ScandinavianLiving

SCANDINAVIAN living

Nordic style keeps the kitchen light, bright and airy with slick whites and graphite greys maintaining a clean, contemporary look. Pops of pastel can be added with conical pendants, cookware and textiles while pattern creates contrast. Patchwork prints, hexagonal mosaics and a feature area finished with a **geometric wallpaper design** will add a unique twist.

Multifunctional living

As our homes accommodate all ages and activities, the term 'multifunctional living' is more relevant than ever and it's the kitchen that brings us all together. With everything from cooking, eating and entertaining to relaxing as a family, helping children with their study and even doing a spot of work from home, this open-plan space is key to keeping things running smoothly.

Make your kitchen work for you with a well-planned layout:

CREATE A COOKING ZONE

The heart of any kitchen is the cooking area so make sure yours suits your culinary needs and lifestyle with a professional-style range cooker in gas, electric, induction or dual fuel. Choose a model that offers a variety of features and functions along with a good-sized oven capacity. For a more sleek, seamless finish, built-in appliances will keep ovens at eye level away from little ones while still offering the very latest in cooking technology.

ENJOY ENTERTAINING WITH EASE

Whether it's a coffee and catch-up with friends or having the family over for a Sunday roast, aim to include space for both casual and more formal dining with an island unit or breakfast bar and a table complete with bench or corner seating where space is limited. Add a wine cooler for chilled drinks then sit back and enjoy.

CHILL OUT WITH THE FAMILY

Open-plan kitchens are usually subtly divided into different zones with a dedicated area for unwinding. A comfy sofa, coffee or side table and a TV if desired will create the ultimate family den. Choose similar tones, materials and textures for a co-ordinated feel throughout or go for contrast with a splash of colour.

WORK LIFE BALANCE

Whether you work from home full time or you just need somewhere quiet to catch up on paperwork, integrating a calming study area is easily done in a large open-plan area. Consider a foldaway desk or a freestanding cupboard with drop-down laptop holder concealed inside and keep the room clutter-free by adding neat storage solutions such as drawers, cubbyholes and shelving.

#ClassicallyShaker

Cream, Light Grey and Sage are perfect shades in a shaker kitchen.

classically SHAKER

Key to the Shaker kitchen style is framed and inset panelled furniture with classic proportions. Functional and practical, this traditional look can be given a modern update with an on-trend charcoal or grey painted finish, nickel handles and a steel or colourful cooker taking centre stage. Perfect for homes of all styles and sizes.

AQUATREND TAP

With its classic curve, the Aquatrend Tap will complement this style effortlessly.

Rangemaster Elan Deluxe 90 in Cream.

Cooking Performance

Alexandra, our Home Economist, plays a vital role at Rangemaster. She ensures that our products are designed to deliver on the cooking expectations of Rangemaster customers. So whether you cook daily for a large family, are a keen home baker, have a passion for Asian cooking or are simply a food fanatic you will not be disappointed with your Rangemaster cooker.

Our products are built to stand the test of time, with everyday use in mind, Rangemaster range cookers are made from the highest quality materials to ensure longevity and durability.

SPECIALIST features

Whatever style of cooking you prefer, Rangemaster cookers offer a unique choice of features to make your life easier, creating perfect results every time.

*Not all features are included on every model. Please refer to product specifications.

Why choose Induction?

Fast, responsive and incredibly controllable, induction cooking is becoming increasingly popular. Incorporating a wealth of safety features, our induction hobs offer by far the most efficient choice.

- | | |
|--|--|
| <p>A Automatic Heat Up Setting
Applies maximum power to the selected zone for a brief period. Ideal for cooking rice and pasta.</p> | <p>1-9 Zone Power Settings 1 - 9
9 power settings giving instant response and full controllability through rotary controls.</p> |
| <p>L1 Preparation Setting
Pre-set temperature setting of 40°C. Ideal for melting butter or chocolate.</p> | <p>P Power Boost Setting
Makes additional power available therefore quicker cooking times giving greater flexibility and control.</p> |
| <p>L2 Optimum Simmer
Pre-set temperature setting of 90°C. Perfect for simmering vegetables.</p> | |

GRIDDLE

Made from robust cast aluminium, the griddle plate sits snugly on top of the gas hob, when required. The flat plate is ideal for cooking bacon and French toast, while the grooved plate provides fat drainage, offering a healthier way to sear steaks, burgers and fish.

TEPPANYAKI GRIDDLE

Cook healthy food Japanese-style with the unique Teppanyaki-style griddle plate that fits snugly over the burners. It is also coated for non-stick easy cleaning.

NON SCRATCH ENAMEL

Our Endurance™ finish is eco friendly, durable and will last for years to come. On our range cookers we only use environmentally-friendly, top-quality paints and enamels supplied by the global leader in the field, and applied at our factory in Leamington Spa.

MULTI-ZONE

Choose between two ceramic 1.1kW cooking zones, or slot a durable non-stick griddle plate over the top to provide a healthy cooking surface.

MULTI-RING BURNER

Create authentic Asian cuisine on our multi-ring burner, which can hold a specially designed wok cradle.

PYROLYTIC CLEANING

Turn the oven to this function and it literally cleans itself. The oven will heat up to 450°C, once it reaches this temperature, the oven carbonises all cooking residue to a fine ash; at the end of the cycle all that is left to do is simply wipe away the ash with a damp cloth.

GLIDE-OUT GRILL™

Positioned on smooth-action telescopic runners, our glide-out grill™ does exactly that. Not only is it easier to check up on your food as it's grilling, but it's also safer as it reduces the risk of pulling the grill out too far.

BREAD PROVING DRAWER

Our bread proving drawer is a unique feature to range cooking, enabling you to rest and rise your dough before baking.

DELUXE GLIDE-OUT GRILL™

The improved grill offers even more cooking flexibility and capacity thanks to its deeper pan design. It also includes a four-way trivet for four grilling depth options to suit every type of dish.

LARGE OVEN CAPACITY

With a main fan oven of 73L (80L conventional), the Rangemaster oven leads the way for size and performance. 'A' rated across the board and ultra fast pre-heating with Rapid Response™ make Rangemaster ovens the largest and most efficient available.

MULTIFUNCTION oven

The multifunction oven offers seven functions for really flexible cooking. These ovens have fan and conventional functions combined with grilling, base heat and browning elements all of which can be used individually. So you can use the base heat to crisp the base of your pizza; fan grill some whole fish; brown a pasta bake; cook your roasts using the fan assisted function or bake using the conventional function.

FAN ASSISTED OVEN

Uses elements at the top and bottom of the oven with the fan assisting the cooking process. The cavity is hotter at the top cooler at the bottom. Crisp and brown the top and bottom as well as cooking through.

FANNED GRILLING

Using the top heat element in conjunction with the fan the fanned grill provides a grilled effect without the need to turn the food. Grill with the door closed, no need to turn the food.

CONVENTIONAL OVEN

Traditional cooking method using top and bottom heat and zoned cooking. Much hotter at the top than the bottom. Ideal for traditional baking e.g soufflé.

FAN OVEN

Uses an element at the back of the fan, the fan forces the heat into the cavity making the cavity the same temp throughout. Ideal for batch baking or different foods at the same temperature.

BROWNING ELEMENT

Using the top exposed element only to offer a very high intense heat for browning and toasting.

DEFROST

The fan only with no heat draws cold air from the frozen food to speed up defrosting.

BASE HEAT

Using an element in the bottom only the base heat can be used for slow gentle cooking or high heat for crisping up the base.

RAPID RESPONSE™

Rapid heat up time for any dish or ready meal. Heats up 30% quicker than fan alone. For fanned cooking only*.

*Selected models.

Making your choice...

Whether you want a traditional style or the clean, sophisticated lines of something a little more contemporary, a Rangemaster range cooker will become the cornerstone of your kitchen. Distinctive, efficient, highly versatile and made to our exacting standards, every Rangemaster is designed to make cooking a pleasure, not a chore.

CLOCK & TIMER

Keep an eye on cooking times with the smart LED display and minute minder. Our all-electric models also feature a programmable main oven.

TOP OVEN CAVITY

For flexible cooking, the top cavity houses an oven and grill with two cooking levels, one flat shelf and a grill tray plus handle.

ROTARY CONTROLS

The new 60cm collection also comes with scaled-down versions of the much-loved Rangemaster control knobs for ease of use and a professional finish.

OVEN CLEANING

Cleaning the oven is such a chore, so to make life simpler, our 60cm range comes with catalytic liners in the top and bottom cavities.

GRIDDLE

The all-gas collection boasts a half smooth, half ribbed non-stick griddle for sizzling stir-fries, seared salmon, seafood and steaks, or even a weekend fry-up.

why upgrade to FALCON SERIES?

Relentlessly raising the bar, the Falcon Series sets out to inspire the passion and creativity of professional cooking in the domestic kitchen. Stemming from a long standing heritage in professional catering equipment, the commercial pedigree of Falcon range cookers is evident throughout every product; precision engineering, outstanding build quality, design flair and high performance come as standard.

The Falcon Series is the choice for those who share our passion for food, style and exceptional cooking.

Falcon 1092 Deluxe in Slate. Image courtesy of J M Interiors.

It's all in the detail

Falcon range cookers are at the pinnacle of engineering brilliance; ensuring the quality, durability and functionality you would expect from a cooker with its illustrious commercial heritage. Our cookers are made from a **thick 1.2mm gauge stainless steel**, **our burners are solid brass** and in one piece for ease of cleaning, and unlike most hob and cooker panels, our **controls are ink moulded** and injected onto a chrome plate for a dazzling professional finish made to last.

Falcon cookers have long set the professional standard both at home and in the commercial environment and is the fundamental ingredient in the serious cooks kitchen.

Cooking POWER!

Offering the choice of powerful gas hob, or sleek looking induction top, the Falcon range provides you with ultimate control and superior performance.

Falcon cookers will let you indulge in your favourite culinary dishes with their two large high performance ovens*. Both the multifunction and fanned oven are complete with stay-clean removable liners. The robust dual circuit grill features a fully extending gliding tray.

Dual Fuel

Offers five professional standard burners, including a 5kW central burner, essential for the high temperatures needed to create wonderful stir-fried dishes.

Falcon dual fuel hotplates feature a one piece burner head and individual pan supports for easy cleaning and reassembly.

All dual fuel models are manufactured with Flame Supervision Devices (FSD's) as standard.

Induction

Fast, responsive and incredibly controllable, induction cooking is becoming increasingly popular. Incorporating a wealth of safety features, our induction hobs offer by far the most efficient choice.

*The Falcon 900S is an exception with one large cavity.

ENERGY SAVING SPACE (ESP)

With the ESP in place, the right hand oven can be used to cook in exactly the same manner as the full oven with identical functionality. Whether you are using the full size or divided oven, you have access to an impressive seven functions, including fan assisted and defrost settings. 'A' rated for energy, this is especially impressive considering its 114 cubic litre capacity is one of the largest available in Europe.

KEY FEATURES

Falcon 900 Single Cavity

- 114 Litre multifunction oven
- Catalytic-lined energy saving panel (ESP) allowing the user to create a reduced oven (49 Litre)
- Integrated grill featuring 2 deep grill pans with 2-way trivet
- Premium, enhanced stainless steel hotplate (Dual Fuel)
- 5 burner hob including 1 x 5kW industrial strength burner with wok cradle (Dual Fuel)
- One-piece bolted professional brass burners (Dual Fuel)
- 5 zone hob including a large powerful 3.7kW central induction burner (Induction)
- Professional quality oven shelves with lock system
- Durable ink injected graphics on the control panel
- Full cooker width storage drawer for storing extra oven shelves and energy saving panel with non-slip liner

Falcon 900S with Super Extract Hood in China Blue.

Hoods and Splashbacks

What looks best with your Rangemaster range cooker?
Another Rangemaster, of course. Offering both traditional and contemporary styling,
our range of hoods have been specifically designed to complement your cooker.

ZEST HOOD

- Ceiling suspended hood
- 3 speeds plus intensive
- Timer delay setting
- Remote control included
- Charcoal filter
- Dishwasher safe aluminium grease filters
- LED lighting
- 24 hour setting
- Re-circulating as standard

VESPER HOOD

- Ceiling suspended hood
- 'Up and down' motorised movement
- 3 speeds plus intensive
- Timer delay setting
- Remote control
- Charcoal filter
- Dishwasher safe aluminium grease filters
- 24 hour setting
- Re-circulating as standard*

BELLINI HOOD

- Available in 80cm
- Energy efficient
- 4 speeds plus intensive
- Touch control
- Charcoal filter
- Dishwasher safe aluminium grease filters
- LED lighting
- Brushless motor
- Timer delay
- Available as re-circulating and extraction**

OPAL HOOD

- Available in 60 (Black only), 90 or 100cm
- 3 speeds plus intensive
- Touch control
- Charcoal filter
- Dishwasher safe aluminium grease filters
- LED lighting
- Available as re-circulating and extraction**

HI-LITE HOOD

- Available in 90, 100 & 110cm
- Touch control with white display
- 3 speeds plus intensive
- LED Lighting

- Charcoal filter
- Dishwasher safe premium stainless steel grease filters
- Available as re-circulating and extraction

CLASSIC CHIMNEY HOOD

- Available in 90, 100 or 110cm
- Rangemaster chrome badge* & rail
- Charcoal filter
- Dishwasher safe aluminium grease filters
- Available as re-circulating and extraction

CHIMNEY HOOD

- Available in 90, 100 or 110cm
- Rangemaster chrome badge*
- Charcoal filter
- Dishwasher safe aluminium grease filters
- Available as re-circulating and extraction

SUPER EXTRACT HOOD

- Available in 90, 100 or 110cm
- Powerful extraction rate of 795.8 m³/hr
- Falcon brushed chrome badge and trim*
- 10 minute delayed 'fan' off* to clear residual fumes
- 3 speed setting plus intensive (power boost) mode
- 2 LED spotlights
- Dishwasher safe metal grease filters
- Grease filter timer warning after 30 hours of accumulated use
- Extraction as standard, recirculating kit available as optional extra

Black & Cream: Chrome & brass trim.
Stainless Steel: Chrome trim only.
All other colours: Brushed chrome trim.

CONTEMPORARY HOOD

- Available in 90 or 110cm
- Powerful extraction rate of 804.2 m³/hr
- Falcon chrome badge
- 3 speed setting plus intensive (power boost) mode
- 2 LED spotlights providing optimum hob lighting
- Dishwasher safe metal grease filters
- Grease filter timer warning after 30 hours of accumulated use
- Extraction as standard, recirculating kit available as optional extra

Black, Cream & Stainless Steel: Chrome trim.
All other colours: Brushed chrome trim.

TOLEDO HOOD

- Available in 90 or 110cm
- Rangemaster chrome badge*
- Charcoal filter
- Dishwasher safe aluminium grease filters
- Stainless steel and glass with illuminated ice blue fascia
- Available as re-circulating and extraction

FLAT HOOD

- Available in 90, 100 or 110cm
- Rangemaster chrome badge*
- Charcoal filter
- Dishwasher safe aluminium grease filters
- Available as re-circulating and extraction
- LED Lighting

SUPER FLAT HOOD

- Available in 110cm
- Powerful extraction rate of 740 m³/hr
- Falcon chrome badge and trim*
- Push button controls
- 3 speed settings plus intensive (boost) mode
- Charcoal filters for use in re-circulation mode
- Dishwasher safe metal grease filters
- Three halogen spotlights
- Supplied for extraction or re-circulation use

Available with chrome trim.

ELITE HOOD

- Available in 110cm
- Stainless steel and glass with illuminated ice blue fascia
- Charcoal filter
- Dishwasher safe aluminium grease filters
- Available as re-circulating and extraction

60 / 70CM HOODS

- Available in 60 & 70cm
- Rangemaster chrome badge*
- Charcoal filter
- Dishwasher safe aluminium grease filters
- Available as re-circulating and extraction

INTEGRATED HOOD

- Extraction rate of 785 m³/hr
- 3 speed settings plus intensive (boost) mode
- Operated by remote control (optional extra) or integrated illuminated push button controls
- 2 halogen spotlights
- Charcoal filters for use in re-circulation mode
- Dishwasher safe metal grease filters
- Supplied for extraction or re-circulation use

FALCON FM900 BUILT-IN HOOD

- Extraction rate of 787.4 m³/hr
- 3 speed settings plus intensive (boost) mode
- 6 illuminated push button controls
- Two LED spotlights
- Charcoal filters for use in re-circulation mode
- Dishwasher safe metal grease filters
- Grease filter timer warning after 30 hours of accumulated use

Our sophisticated range of splashbacks will protect your wall from cooking splashes and spills. In toughened glass or stainless steel, they are extremely durable and easy to maintain

CLASSIC SPLASHBACK

- Available in 90 or 110cm widths
- 67cm height
- Black with brass or chrome screened classic badge

GLASS SPLASHBACKS

- Available 90, 100 or 110cm widths
- 75cm height
- Toughened glass
- Simplifies cleaning due to their non-porous finish and lack of grout lines

*90cm only

METALLIC GLASS SPLASHBACKS

- Available in 90, 100 or 110cm widths
- 75cm height
- Toughened glass
- Simplifies cleaning due to their non-porous finish and lack of grout lines

*90cm only

TOLEDO SPLASHBACK

- Available in 90 or 110cm widths
- 67cm height
- Designed to fit with the Toledo Hood

RANGEMASTER SPLASHBACKS

- Available in 60, 70, 90, 100 or 110cm widths
- 67cm height

FALCON STAINLESS STEEL SPLASHBACK

- Available in 900, 1000 or 1092mm widths
- 80cm height

*As per IEC 61591 when cooker hood is in extraction mode. **As per IEC 61591 when there is 'free air delivery'.
EN 60704-2-13 method. *Rangemaster recommend 150mm ducting for optimum performance.

Refrigeration

Specialists in professional-style appliances that combine form with function, Rangemaster has launched a new collection of freestanding refrigeration with something to suit every culinary need and kitchen space. As well as smart styling, the new cooling range includes a variety of high-tech features and functions to keep fresh and frozen food at its best, for longer.

Height adjustable shelves

Digital display

Rangefresh™ preserver

what's NEW?

IONIZER™

Our innovative Ionizer™ technology works by spreading negative ions throughout the refrigeration interior, which in turn neutralises any unpleasant odours and dust particles that could otherwise linger inside the cavity. By invisibly and silently removing them, the air quality inside the cooling appliance is instantly improved while any underlying odours are quickly eliminated.

EVEN CIRC™

Keeping food fresh for longer lies at the heart of each and every Rangemaster refrigeration appliance and that's why we incorporate Even circ™ into our new collection of freestanding and integrated models. This state-of-the-art technology minimises any heat transfer from the walls inside the cooler unit to ensure that the food stored inside it stays at its optimum freshness for longer.

RANGEFRESH™

Our unique Rangefresh™ preserving technology helps to remove ethylene gas from inside the refrigeration cavity. This gas is a harmless bio product that is released naturally from fresh foods and by eliminating it, we also remove any unwanted odours that would otherwise naturally occur. This also has the added benefit of keeping food fresh for longer.

NEW RANGE
NEW FEATURES

FRENCH STYLE 2 DOOR / 2 DRAWER

KEY FEATURES

RDXD

- Impressive 557 litre net capacity
- A+ rated for energy efficiency
- Totally frost-free
- External digital control display
- Electronic 'door open' alarm
- Stylish LED lighting
- Flexible shelving
- Double freezer drawers including hidden basket
- Holiday and Eco Modes
- Super Freeze and Super Cool Modes
- Child Lock
- European sizing creates streamlined fit with cabinetry

3 colours to choose from:

RDXD SPECIFICATIONS

PRODUCT	AMERICAN RDXD - 2 DOOR / 2 DRAWER

STYLE & PERFORMANCE

**NEW
EXTENDED
RANGE**

Ensuring you get the most from your Rangemaster cooker.
rangemastercookshop.co.uk

WARRANTY

For further information please call our consumer services team on **0800 804 6261** or **0370 789 5107** and they will be happy to help or visit our website www.rangemaster.co.uk

CLEARANCES

Allow 5mm on either side of the cooker for fitting tolerance. If fitted near a corner, a clearance of 130mm is required to allow for oven door opening. The cooker should be on site prior to final fitting of units and worktops, to ensure a perfect fit.

WARRANTY

Rangemaster appliances come with a 2 year parts and labour warranty, the Falcon Series comes with a 3 year parts and labour (subject to registration). The warranty covers any mechanical breakdown and cosmetic deterioration associated with a manufacturing defect.

CONSUMER SERVICES

If you have any product enquiries, or in the event of a problem with your appliance once it has been installed, please telephone 0800 804 6261 or 0370 789 5107 and have your serial number to hand.

CONSUMER SERVICE LINES OPEN:

Monday to Thursday	8am – 6pm
Friday	8am – 5pm

STANDARDS

Rangemaster cookers (including the Falcon Series) are designed and manufactured to a recognised quality management system, which meets the requirements of BS EN ISO 9001 and BS EN ISO 14001 for continually improving environmental procedures.

Rangemaster cookers (including the Falcon Series) comply with the essential requirements of the appropriate European Directives, and carry the CE mark.

All cookers must be fitted by a suitably qualified individual and in accordance with all relevant British Standards. Installation guides should be read prior to fitting, available to download from www.rangemaster.co.uk.

Rangemaster's latest collection of appliances make cooking a pleasure; simple choices that marry innovation with versatility and style with practicality.

Beautiful styling, a refined finish and finesse that promises to inspire you in the kitchen.
